## **JMTA STUDENT RECITALS**

Three student recitals are typically presented each year by JMTA. Teachers may enter 4-5 students at all levels of performance, with a total of not more than 15 minutes per teacher. Classical repertoire is stressed, and teachers are expected to prepare students with the proper dress and performance etiquette. The number of students in each recital generally range from 25 to 45. Printed programs and refreshments are provided by JMTA and participating teachers. Performances have been held at the University of North Florida, Jacksonville University, Florida Community College at Jacksonville, and area churches during the months of October, December and March. These recitals represent a recital opportunity for young pianists to perform in an atmosphere of professionalism and appreciation.
